

Defensible Space Clearing – Project Management RFP

Scope of Services

The Project Manager will provide coordination and consulting services for Tuolumne County’s Defensible Space Project. The program provides Defensible Space clearing services to seniors and individuals with Access and Functional Needs in 5 communities throughout the county. The communities (and # parcels) are: Cedar Ridge (853), Ponderosa Hills (411), East Sonora (284), Cuesta Serena (282), and Big Oak Flat (196). The time commitment for the Project manager will vary depending on where in the project lifecycle we are (development, execution, review, close-out). After one year and depending on funding availability, we will reevaluate the program and decide as a team whether to expand to other communities.

Please review the RFP for additional information when submitting your proposals.
