Signalization at 5th Avenue and State Route 108

Project No. 1650
Federal Project No. N/A

Description

This project has completed construction of a signal at the intersection of State Route 108/49 and 5th Avenue, adding turn lanes on 5th Avenue in the northbound and southbound directions at the intersection. A train motif and signage for Railtown State Historic Park will be added to the retaining wall as the final phase of this project.

Purpose and Need

The purpose of this project is to improve safety and reduce the number of accidents at the intersection. Based on the March 2012 *Traffic Operations Report* a signal is needed at this intersection. Elements referencing the historic nature of Jamestown have been added as part based on input during the project's environmental process.

Strategic Plan Goals

Warranted per *Traffic Operations Report* dated March 2012 per Rawhide Rd crossing Woods Creek Bridge Project.

Funding Sources

Traffic Mitigation Impact Fees (TMIF), Minor A-statefunds

Total Project Cost: \$3,625,275

Current Phase

Construction was completed on the new signal in 2019.

Anticipated Year of Construction: May 2018
