

Find a doctor or hospital you trust

Choose from high-performing healthcare professionals in your Anthem plan's network.

PPO

**Tuolumne County
8.15.2024**

Welcome

Your Anthem health plan includes access to a large network of excellent doctors and hospitals, so you can always find the care you need. Keep in mind, you'll save money when you visit a doctor in your plan's network because they've agreed to charge special rates for their services. Doctors outside your plan's network can charge what they want.

We've included a list of doctors who are in your plan's network to help you find the right one for you and your family.

You can also search for doctors by name, location, or specialty with the Find Care tool on anthem.com/ca, or using the Sydney Health mobile app.

If you need help finding a doctor, call us at the Member Services number on your ID card.

What's inside

Si necesitas ayuda en español para entender este documento, puedes solicitarla sin costo adicional, llamando al número de Servicio al Cliente que aparece al dorso de su tarjeta de identificación o en el folleto de inscripción.

How your plan works

PPO:

Preferred provider organization. This type of plan covers services from almost any doctor or hospital, but you will pay less if you go to one in your plan's network. In addition, you can usually see a specialist without a referral from your primary care doctor. However, certain PPO plans may have different rules, so be sure to check your plan details.

If you are a member, you are entitled to language interpreter services at no cost. Members can get language assistance by calling **1-888-254-2721**.

All members, including members with disabilities, are entitled to full and equal access to covered services. Anthem makes available to its members information relating to their health plan in alternative formats, including electronic, braille, large print and audio (CD or mp3). Members may request an alternative format of a member document by calling the Customer Service number on the back of their member ID card, or by logging in and emailing us using the email feature on the Customer Support page [anthem.com](https://www.anthem.com).

If you find information in this directory that you think is inaccurate, you can let us know by writing us at ProviderDirectoryDiscrepancy@Anthem.com or by calling **1-844-839-4049**.

Some hospitals and other providers do not provide one or more of the following services that may be covered under your plan contract and that you or your family member might need: family planning; contraceptive services, including emergency contraception; sterilization, including tubal ligation at the time of labor and delivery; infertility treatments; or abortion. You should obtain more information before you enroll. Call your prospective doctor, medical group, independent practice association, or clinic, or call the health plan at the number on the back of your ID card to ensure that you can obtain the health care services that you need.

How your plan works

Acupuncture and chiropractic care

Your plan includes coverage for acupuncture and chiropractic care through American Specialty Health Plans (ASHP). ASHP has a network of accredited acupuncturists and chiropractors throughout California.

You don't need a referral from your HMO to receive acupuncture and chiropractic services from doctors and healthcare professionals in your plan's network.

Preapproval

There may be times when you need to receive approval from your health plan before you visit a doctor or hospital. This process lets you know ahead of time whether we will help cover a service, supply, therapy, or drug — and helps you avoid unexpected healthcare costs.

If you ever have a question about whether you need preapproval, call the preapproval phone number on your ID card.

What you need to know about appointments

We're committed to making sure you have access to the care you need — when you need it. So here's a brief rundown of how long it should take you to get an appointment with a California Behavioral/Mental Health, Employee Assistance Program (EAP) or Medical provider.

Standard waiting times for CA Behavioral Health care:

Type of care	Waiting time
Emergency care (call 911 or go to the nearest emergency room)	Immediately
Emergency (not life-threatening)	6 hours
Urgent care that does not need a prior OK by us (this is called prior authorization)	48 hours
Urgent care that needs prior authorization	96 hours
Routine office visit/non-urgent care appointment	• 15 business days for psychiatrists** • 10 business days for a behavioral health care provider who is not a psychiatrist
After-hours care (when a behavioral health or EAP provider's office is closed)	A live person or recorded message for emergency and non-emergency care is available 24 hours a day, seven days a week. The live person or recorded message should also tell you: • How to reach a behavioral health/EAP provider • When to expect a call back for urgent matters that aren't an emergency
In-office waiting room time	You will usually not have to wait more than 15 minutes to see a doctor, nurse or designated assistant.

** This date is 10 business days for Psychiatrists when the appointment is an initial appointment due to accreditation standards.

Standard waiting times for CA Medical Care:

 Type of care	 Waiting time
Appointments with your primary doctor that aren't urgent care	10 business days
Urgent care appointments that do not need a prior OK (this is called prior authorization)	48 hours
Appointments with specialists for care that is not urgent	15 business days
Urgent care appointments that do need prior authorization	96 hours
Appointments for ancillary services (for diagnosis or treating an injury, illness or other health condition) that is not urgent care	15 business days

 Type of care	 Waiting time
In-office waiting room time	You will usually not have to wait more than 15 minutes to see a doctor, nurse or designated assistant.
After-hours care (when a doctor's office is closed)	A live person or recorded message for emergency and non-emergency care instructions is available 24 hours a day, seven days a week. You should also be told when to expect a call back for urgent matters that aren't an emergency.
Emergency care (call 911 or go to the nearest emergency room)	Immediately
Question for Anthem's Customer Service by telephone on how to get care or solve a problem, including mental health	10 minutes to reach a live person by phone during normal business hours.
Question for a nurse on how to access care or solve a problem	The wait time is not to exceed 30 minutes. A nurse line is available 24 hours a day, seven days a week; the number can be found on the back of your member ID card.

If you need the services of an interpreter, the services will be coordinated with scheduled appointments and will not result in a delay of an appointment with a participating provider. To learn more about your health care and benefits, please see your Certificate or Evidence of Coverage or call the Customer Service phone number on your ID card. You also can call if you are having difficulty getting an appointment within these waiting times.

Finding quality care

When it's time to find a doctor or hospital in your plan, you can be sure that our network includes high-quality providers. However, we understand that you may want to do your own research. The tips below include resources that can help you find the care that is right for you.

Are you choosing a doctor?

When searching for a doctor, you may want to check for their board certification and where they attended medical school. Board certification shows that a doctor has earned a medical degree from a qualified school, completed an accredited residency training, passed an exam to be licensed by the state where they practice, and takes continuing education classes. The medical school lets you know where they earned their degree.

- For most doctors, you can verify their current board certification status directly through the American Board of Medical Specialties (ABMS) at [certificationmatters.org](https://www.certificationmatters.org). Select **Is my doctor board certified?** to search for doctors.
- Board certification for Doctors of Osteopathic Medicine can be found by going to the American Osteopathic Association (AOA) website at [doctorsthatdo.org](https://www.doctorsthatdo.org). To find information, scroll down to *Find Your DO*, enter location information and then use the filter options to refine the results.
- To verify board certification status of specialties not affiliated with ABMS or AOA, go directly to the appropriate board's website.
- To verify medical school, go to the Federation of State Medical Boards (FSMB) website at [fsmb.org](https://www.fsmb.org). From the FSMB homepage, select **Find a Doctor** then enter the search criteria

Are you choosing a hospital?

When looking for a hospital, you will want to check quality and accreditation. Quality is generally based on patient experience and outcomes. Accreditation also measures quality along with safety and the hospital's commitment to best practices and continuous improvement in patient care.

Hospital quality

Hospital Compare is a government site that lets you compare hospitals based on their overall star rating. You will see how well hospitals provide recommended care, as well as find data on patient experiences and outcomes such as readmissions and complications. To find a hospital or compare up to three locations, go to www.medicare.gov/hospitalcompare/search.html, enter your location and select **Search**.

Hospital accreditation

Accreditation is usually awarded by an independent third party. You can find hospital accreditation information by using any of the following agency links.

The Joint Commission (TJC)

Go to [qualitycheck.org](https://www.qualitycheck.org). Enter the name of the hospital or search by entering location information. Use the *Narrow Results* section to refine your search and select the **Hospital** under *Accreditation Program*.

Health Care Facilities Accreditation Program (HFAP)

Go to [hfap.org](https://www.hfap.org) and select **Search Facilities** to begin looking for accredited hospitals. You can narrow your search using the *Filter Grid Options*. Choose **Details** to find information about the hospital.

National Integrated Accreditation for Healthcare Organization (NIAHO)

Go to dnvglhealthcare.com/hospitals. Select the **Search Hospitals** tab on the right or complete the fields under the *Search Hospitals* column on the left. You can then search by hospital name, type of certification and accreditation, or state.

Center for Improvement in Healthcare Quality (CIHQ)

Go to [cihq.org/hospital_list.asp](https://www.cihq.org/hospital_list.asp). Here you'll find the *CIHQ Accredited Hospital Listing* in alphabetical order. To view additional hospitals, choose **Next**. Select the hospital name for more information.
